

## Environmental and Sustainability Management System (EMS) Environmental and Sustainability Policy

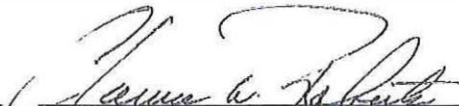

The Albemarle County Service Authority:

- is strongly committed to maintaining a safe and clean environment, preventing pollution, and preserving the community's water and environmental resources.
- strives to continuously improve its environmental practices, with the goal of meeting or exceeding all environmental regulatory requirements.
- is committed to minimizing significant impacts identified in the Environmental and Sustainability Management System (EMS) by setting environmental objectives, and continually evaluating progress toward meeting those objectives.
- empowers each employee through ongoing training and will actively seek employee and public input in promoting environmental stewardship and sustainability.

This policy is communicated to all persons who work for, or on behalf of, the Albemarle County Service Authority, and is available to the general public. It is periodically reviewed and, when necessary, revised.

Gary B. O'Connell, Executive Director

Clarence W. Roberts, Chairman

*Conserve today, sustain tomorrow, and protect water and environmental resources forever.*

Original Policy Approved: 5/19/2011
